PROFILE

Frontend Developer with 4+ years of experience building React, Next.js, and React Native applications. Currently contributing to KLB Connect as a freelancer across mobile, web, and deployment. Previously owned frontend delivery for field operations and led an e-commerce launch serving 500+ users.

TECHNICAL SKILLS

Core: React.js, Next.js, React Native, TypeScript, JavaScript ES6+, HTML5, CSS3, Tailwind CSS

Architecture: Redux Toolkit, Context API, custom hooks, reusable components, SSR/SSG, responsive design

Integration: REST APIs, Axios, JWT, OAuth 2.0, RBAC, Firebase Cloud Messaging, offline data sync

Quality and tools: Jest, Git, Chrome DevTools, Postman, Android Studio, Xcode, accessibility, Agile

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer | Kalaburagi Tech

Jan 2026 - Present | KLB Connect | kalaburagitech.com

- Contribute to frontend development of KLB Connect, a field operations platform with a React Native mobile app and a React.js/Next.js web dashboard.
- Work on mobile frontend workflows for attendance, patrols, inspections, and guest management, within an app supporting GPS, QR scanning, and offline synchronization.
- Contribute to dashboard interfaces for operational monitoring, attendance review, issue tracking, and role-based workflows; participate in application deployment.

Frontend Developer | Stalwart People Services India Ltd.

Oct 2024 - Jan 2026 | Stalwart Recon

- Owned frontend design, development, testing, and release as the sole frontend engineer for a React Native field operations app and React.js admin dashboard.
- Implemented JWT authentication, protected routes, and role-based access for 3 user roles, reducing manual administrative effort by 50%.
- Designed Redux Toolkit state management across 10+ business workflows, reducing state-related defects by 30%.
- Integrated REST APIs, push notifications, and offline sync; optimized rendering using memoization, lazy loading, and FlatList tuning.

Frontend Developer | AU Technology Consulting Pvt. Ltd.

Jan 2022 - Sep 2024

- BOAS.CO: Led frontend development and a Next.js SSR migration, delivering the e-commerce launch within 6 months after a 3-year product delay and enabling 500+ users.
- Reduced product publishing time by 60% through streamlined frontend workflows and component reuse on BOAS.CO.
- MORF: Built a JSON-driven UI rendering engine in React and TypeScript, enabling new product configurations without manual UI redevelopment.
- CLOSAL and SunnyStateAgency: Built responsive React/Next.js features with reusable components, Redux Toolkit, and REST API integration.

EDUCATION

Bachelor of Computer Applications | Gulbarga University, Karnataka

2017 - 2020 | CGPA: 8.5
